There is no religion suited to all the nations of the earth except Christianity. It is, and our prayers and efforts should be to the end, that the thrill of eternal life, might be the experience of the people to the remotest ends of earth. May a knowledge of God as revealed in Christ soon become universal and the inventors skill of the 19th century, is evidently hastening matters on in that direction. We are constantly coming into closer and more intimate relations with the distant and hitherto inaccessible and com paratively unknown regions of earth This improvement in intercourse and communication is making us feel more and more like citizens of a commor world. This simply means that there nust be increased aggressiveness made in behalf of the Christian faith. The false faiths must give way but they will not give way until they are compelled to do so. It is to be expected that they will not give way without a struggle. Hence we find a tendency now to compare Christianity and heathen systems of religion, hoping to make excellencies appear in the heathen faiths in this omparison that will reflect upon them favorably But take Buddhism, for instance. time and opportunity to demonstrate its superiority. But what has it done for the nations of the East? Why are not China and Japan the centers of civilization instead of Europe and America? Our Savior said "by their fruits ye shall know them. Buddhism as a religion would elevate us as a nation to the level of China: Mohammedanism to the level of Turkey and Roman Catholicism to the Spanish and Mexican standard of intelligence and prosperity. Wouldn't such elevations be glorious? May the Dark Ages and spiritual bondage never be the heritage of our people. Let our Bible remain open and our press and schools be free. We are the freest, most intelligent and most prosperous nation on the face of the earth today because of our Protestant Christianity. These outside trees do not show a fruit that would jus-

what they would give. Then as we look away from home to other lands we long to see the people redeemed from the night that is now upor them. Says Mrs. Isabella Bird, a distinguished traveler and authoress in a recent address on the religions of Asia: "As a traveler and not as a mission worker, do I speak of what I have seen of the desperate needs of the unchris tianized world. I have visited the Polynesian Islands, Japan, Southern China, the Malay Peninsula, Ceylon, North India, Cashmere, Thibet, Central Asia, Persia, Arabia and Asia Minor. When traveling in Asia says Mrs. Bird it struck me very much how little we heard how little we know as to how sin is enthroned and defied and worshipped. There is sin and shame everywhere. Mohammedanism is corrupt to the very and can afford to pay you more than name is original with him. "Whatcore. The morals of Mohammedan countries are correct and the imaginations are wicked. Sanitation.

Our village of Oregon, Mo., is cer

tainly one of the healthiest in the world Its population is some twelve hundred and it has more people over seventy years of age than any other placewe know. of. Several are from seventy five to ninety or more, and they are all very old inbabitants of this county, (Holt.) If it be true as is general all aged, that some thirty or more children out of every hundred die ere they pass their tifth year this town is a remarkable excep tuon. We rarely hear of the death of a child. The Sextines publishes every leath that occurs and we would have to review our files for many long years back to find thirty deaths of children, There have been three or four deaths of Negro infants and two or three of Negronee, from the usual well known causes of death among that people. A few leaths of late years of every aged perons have not lessened our extraordinery ast of people over seventy, because more have entered into it from lapse of time than have passed away. Now we ought to use all means of sanitation in view of the extraordinary wet season. Should it be followed by sudden drought an epidemic of, dysentery is sure to result. No ponds of water should be allowed to stand within or near our amits. One pond has been known elsewhere to occasion much fatal disase. If we have a town authority that will permit such nuisances at such a eason as this, how would we feel if later a fatal epidemic should carry off many little ones. Besides, the annoyance of mosquites, countless swarms arising from one pend, is exough to justify complaint. All alleys should be cleaned up and all foul drains and pest breathing spots tilled up with ashes or lime and the like. What is elsewhere termed the sickly season will soon be upon us. Fortunately our town has been exempt

from the sickness of that season,

peretofore.

How to Look Good Good looks are really more than skin eep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; f your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is good Alterative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, plotches and bods, and gives a good complexion. Every bottle guaranteed. Sold at Clark O. Proud's drug store, 50

cents per bottle. Another Nodaway Horse.

The Northwest Missouri horse is geting a reputation all over the United States. "What er lou," a four year old, bred and raised by Lamar Brothers, of near Elmo, is adding greatly to his reputation. Two weeks ago he won the inaugural on the St. Louis race track winning a purse of \$1500 for his owners John Huffman & Co., of Louisville, Ky., and this week he won the gentlemen's club stakes event, winning a purse of \$2500. The former event was a mile and a half dash. He made the latter distance in 2:08, leading the horse which

you second place by eight lengths. "What er lou" has had a history, which when it becomes known, is likely to be ooked upon as a phenomenon. Two years ago, when he was a two-year-old, he was shipped to Louisville by the Lamar Brothers and Charles Ramsay, along with a car load other well-bred horses. The Kentucky market was glutted with blooded animals that year, and it looked for awhile like none of the horses in the car load would be sold. Finally, "Whater-Lou" and another colt, whose name has since been forgotten, were put up at auction, and both were knocked down to

Iuffman & Company for \$20. Huffman's trainers decided that there was something in "What er-lou" and he was carefully trained. Last year he won almost all the three-year-old events in which he was entered, and he started off in a way that promises to make him a star this season.

"What-er-lou" was named by Charles Ramsay, Postmaster Grem's genial assistant in the postoffice. Judge Ramsay his father, is a great admirer of Napoleon, and it was because of this that Charley decided to name him Waterer-lou's" sire is "White" and his dam "Alma Lamar," both of them still owned by the Lamar. When your stomach begins to trouble you, it needs help. The help it needs, is to digest your food, and until it gets it, you won't have any peace. Stomach trouble is very distressing, very obsti-nate, very dangerous. Many of the most dangerous diseases begin with simple indigestion. The reason is that indigestion (not digestion, not nourish-ment) weakens the system and and allows disease germs to attack it. The autidote is Shaker Digestive Cordial, strengthening, nourishing, curative. It cures indigestion and renews strength and health. It does this by strength ening the stomach, by helping it to digest your food. It nourishes you. haker Digestive Cordini is made of pure herbs, plants and wine, is per-fectly harmless and will certainly cure all genuine stomach trouble.
